## Course Delivery

Students have up to 12 months to complete the course. However, many students are able to complete their study within this time frame based upon the amount of hours dedicated to study each week.

The course program is taught using a blended approach (Online & Practical Training).

### Online

The course is delivered online which means students are not required to attend classes or lectures. Students will receive access to our 'Learning Portal' where they will find the course materials, interactive learning materials, videos and assessments. In addition, students will also receive a hard copy of the Learner Resource.

While studying online, students will have access to our teaching support team via email, online chat or phone. Our teaching team will help support and guide students every step on their journey.

### Practical Training

The practical training (hands-on) is completed at the academy under the guidance and support of our qualified teachers and groomers for **one week full time**. This ensures the student is taught the hands-on skills required to become a bather/brusher while being guided by our team. During the practical training, students have access to a range of dog breeds to wash and dry and are able to practice their skills in a safe environment.

On successful completion of the course, students will receive a **Statement of Attainment** for the **ACM30122 Certificate III in Animal Care Services (Pet Grooming)** qualification that shows the units that the student completed.
